between CMO, MS(R) and MS(PH) - Infected blood products

Wendy,

I've discussed this with MS(R) and he is content to postpone the meeting as the CMO suggests.

Thanks,

Subject: Meeting
between CMO, MS(R) and MS(PH) - Infected blood products

Dear Sarah and Matt

Apologies for the late notice, but the CMO would be very grateful if tomorrow's meeting on infected blood products could be delayed until the New Year. There are two key reasons for this. Firstly, having spoken with the policy officials involved, he has been told that a draft of the internal review into the calls for a public enquiry will be available in mid January, and is strongly of the mind that a meeting would be far more productive in light of its final findings. Secondly, he is very keen that he should not leave tomorrow's NHS Management Board meeting early given the proposed discussion on Connecting for Health which he should be part of.

Apologies for the last minute request, but I would be grateful for a response as soon as possible.

Best wishes,

Wendy
