Dear Richard,

Re: Factor VIII Concentrate 8CRV1526

Regarding your letter about the follow-up action concerning donors who contributed to the above batch, we will check our records to see if any of our HIV1 antibody positive donors were implicated.

I understood that Dr. Jayaswal was doing this but she has now left us to work as Associate Director of the Brisbane Transfusion Centre.

Unfortunately, we now cannot trace the sheets which Dr. Snape provided with the list of single packs. Please could I have another copy of the sheets and I will be in touch with you again as soon as possible. Sorry about this.

Kindest regards,

Yours sincerely,

GRO-C

I am putting together files which could be of importance if litigation ensues on AIDS in haemophilia. The John Craske file should be used
