Dear Dr. Snape,

Supplies of Heated Factor VIII Concentrate for Exeter

In my letter to you of 14th February in which I listed patients whom I wished to treat with heat treated Factor VIII concentrate, I inadvertently excluded 2 patients and I would be grateful if you could include them in the list. Their details are as follows:

<u>Patient</u>	<u>Category</u>	<u>Anticipated Requirement of Factor VIII (i.u.) per Month</u>
GRO-A	3	8,000
	3	2,500

I am sorry for the inconvenience of this late application.

Yours sincerely,

GRO-C

Dear Dr. Snape,

Supplies of Heated Factor VIII Concentrates

I am sorry I have not replied to your letter before. I would like to apply for supplies of heated concentrate for the following patients:

- (1) GRO-A
- (2)
- (3)

All these patients are on home treatment. Their average requirement is 5,000 units of Factor VIII monthly each. They would all come into category 2 from the point of view of follow-up. They have not yet been screened for HTLV virus but they will be within the next few weeks.

Yours sincerely,

GRO-C

Dr. C. J. T. Bateman, FRCPath.,
Consultant Haematologist.
