London,  
NW3.

Dear Dr. Barrowcliffe,

KOATE-HS ANTIHAEMOPHILIC FACTOR : SAMPLES

Please find enclosed the following samples of Koate-HS Antihaemophilic Factor prepared by Cutter's new wet heat-treatment process:-

2 vials of Batch PR 3056  
2 vials of Batch PR 3063

We are planning to submit an application for a product licence for Koate-HS for marketing as an alternative to Koate-HT. It is not our intention to replace the dry heat-treated product with this new preparation.

I would be grateful if you could test these samples and let me have your comments.

Copies of our analytical results are enclosed.

Yours sincerely,

Marie W. Tatt (Mrs.),  
Regulatory Affairs Manager.
