Room 325,  
14, Russell Square,  
London,  
WC1B 5EP.

Dear Mr. Kennedy,

EVALUATION OF ANTI-HTLV III/LAV ASSAY TESTS

Further to our telephone conversation today, I would be most grateful if you would confirm that the Electro-Nucleonics VIRGO test has been evaluated and found acceptable to the authorities in this country.

We are using this test kit for screening plasma in the United States of America and we would like confirmation that licensed products prepared from plasma that has been found non-reactive by this test will not be rejected on the basis that the VIRGO test is no acceptable.

Thank you for your assistance in this matter.

Yours sincerely,

GRO-C

Marie W. Tatt (Mrs.),  
Regulatory Affairs Manager.
