Subject: FW:

Dear Rosie Winterton,

Please forgive me contacting you by email - I saw you speak at the 'One Click Away' Conference in Sheffield on Friday, and had hoped to catch you after the afternoon workshops, as David Body very much wanted me to pass the attached letter and response in relation to the vCJD Trust to you.

I am one of David's team, and appreciate you were one of the MPs who supported the families when we were at the BSE Inquiry and afterwards in setting up the scheme, as GRO-A - GRO-A's mother, is one of your constituents.

David is waiving the confidentiality of this letter to you and Caroline Flint (and I am sure would give permission to do so to others if you felt it helpful.)

My message was that David would really appreciate a one-to-one meeting with you, if you were prepared to give it. He is not in the office today, but I know he was disappointed I did not manage to hand this to you, and I hope I can remedy this now - I found your email address form the One Click Away site (!) which we are hoping to support with a legal advice line.

David's direct work No. is GRO-C; mobile GRO-C.

Thank you very much for your further time,

With Kind Regards,

delyth jones
