Subject: RE: Publication in the Lancet 15 September- blood and BSE

Please can you provide me with a 1 paragraph statement that is suitable for publication that meets the requests of number 10 below. Also, I have not been give contact details for the National Blood Service spokesperson. I need this now as we are already getting media calls.  
Emily

EMILY

Many thanks for this info.

We need a stronger & clearer line to take: transmission is theoretical and there have been no cases etc, but to minimise any possible danger to public health we have done leucodepletion and imprt foreign blood plasma.

PAUL

Paul

We have only just received this but you will need to know.

Emily
