Subject: Re(2): HEPATITIS C CLAIM AGAINST DH: DISCOVERY PROCESS

I have forwarded your note to G. Robb in HP3 to action para.3. Apropos para 2, I have spoken to David Burrage who asserts that when he left CA-OPU a year or so ago all relevant files were located together in one filing cabinet. So if any is now missing he cannot account for either why that should be or the possible location. As to searching, I am afraid I am heavily involved right now in preparing briefing for a PAC hearing on November 20th and do not have time to undertake a manual search for files (nor is this a proper responsibility for an SEO, I might add, but there you are. Misuse of staff talents is all too common a feature of life in executive grades, I fear). I shall however ask my part-time EO, Leonard Levy, to start searching once he has returned from annual leave in the week commencing 14/10.
