V - INFECTION FROM BLOOD/BLOOD PRODUCTS

At the meeting on 21 June to discuss the case for and against compensation SofS asked for a summary of the current position on a number of issues.

The attached note draws material from a number of submissions and comments from some copyess under the headings mentioned at the meeting. Others have been added to fill in the gaps. I'm afraid the complexity of the issue has meant that this is longer than was hoped.

I understand that SOL are seeking advice from Counsel on the legal issues. Please let me know if there is anything else needed at this stage.

Porang 5/7. Sol has seen & noted. No further action needed at present.
