INTERNAL AUDIT REVIEW: HEPATITIS C LITIGATION

Anita James has copied me your report in this matter. Having instigated the investigation, I wanted to thank you for the report and to say how much I welcome your recommendations which, if accepted, would I believe go a long way towards preventing a recurrence of this unfortunate incident.

I particularly note what you say about the consequences of reorganisation, which struck me as all too real, and a lesson which we can all learn.

(Signed)
