Subject: HEPATITIS C LOOK BACK WORKING PARTY

Dave Burrage

I am concerned about two aspects of the forthcoming meeting on Tuesday next.

1 I have still not been able to fix a meeting with the solicitors to go over the look back procedures and the issues arising therefrom.

The last chance would be if we (Dr Rejman and I could see Anita James on Monday 13th) Could you try and arrange and send her a set of papers for the meeting which supercede earlier drafts. She also needs to read my minute ref testing of stored samples. If in doubt please have a word with Andreij.

2 The HSG or whatever. WE need to have decided the vehicle; the format; the content and the timescale. This will enable us to decide at the meeting when "big bang" should be. That is to say when the second stage of the look back programme can commence. Everyone will want us to go go go immediately following the agreement of the guidance.

Please make this a high priority on Friday and leave a message for me.

Thanks

Roger
