Subject: HIV Compensation and Hep C

At a meeting today with Lady Hayman about compensation for the Radiotherapy Action Group women, she mentioned a PQ about there being no compensation scheme for Hep C cases. She mentioned she would like SOL to look at the answer again. David and Anita appear to have been involved. From what I gather PS(L) is not persuaded that there is much difference between the HIV cases and the Hep C cases. I think she's looking for more info for setting up the HIV scheme. Trish in PS(L)'s Office can give more details.

Gina - In Anita's absence I'm not sure who is dealing with this in SOLB4.

*Re David Dunleavy*

*28 July 97 letter to Hep C Group*

*HIV 1987 Statement Reasons why  
was intro'd - Special  
Cases. But not said what  
they were*

*How distinguish?*

*Asked question similar what if we agreed  
was above HIV not for Hep C*

*Said "it's diff'nt" but why?*

*social stigma or type of disease  
Not as obvious Andre' by name*
