TO: Lowell Crow
FROM: Ross Dileo
DATE WRITTEN: 8-25-75
SUBJECT: Koate™ Registration/Bayer UK
Ref.: Bayer Letter Aug. 13, 1975

Regarding Mrs. Boulton's request for information concerning the occurrence of hepatitis after administration of Koate™, no incidences of hepatitis were reported in any of the 33 patients (166 infusions) used in our clinical evaluations. In addition, we have received no reports attributing hepatitis to Koate™ since its introduction in February 1974.

Attached is a copy of reference No. 4 of the package insert.
