 Rachel Squire  
 Mr Tony Worthington  
 Mr John Home Robertson  
 Mrs Ray Michie

That this House calls on the Government to acknowledge that over 3,000 people with haemophilia have been infected with the hepatitis C virus (HCV) as a result of NHS treatment with contaminated blood products to recognise that over 50 people with haemophilia are now understood to have died from liver disease contracted as a result, and to consider giving similar financial assistance to those infected with HCV, who currently receive no additional help, as for those infected in the same way with HIV who have been compensated by the Government.

★ The figure following this symbol gives the total number of names of Members appended, including those names added in this edition of the Notices of Motions.
