Dear Mr Desai,

HIV HAEMOPHILIA LITIGATION DISCOVERY

This letter covers our May list for discovery, which incorporates the January and April lists previously submitted.

You will note that, for technical reasons, the numbering system starts at 1001 and no date is entered for undated documents, which have been listed at their approximate date of origin. The numbers assigned to documents on the May list supersede the numbering on the April list.

For the purposes of this listing we have stopped at 10/06/86. We understand that relevant documents following that date should be listed. We will do this as soon as possible.

Yours sincerely,

GRO-C

D E BURRAGE
