For the attention of Lord Hunt and Ms Hazel Blears. I am sending you an e-mail copy of my letter of complaint with regard to the testing of haemophiliacs for hepatitis C without their knowledge or consent and the demand for a full and open public inquiry, (see attached letter). I sent this by land post a few days ago with press articles but want to ensure that you receive letters as in the past Government Departments have mislaid my letters. I am also sending this to you in two formats. Please could you acknowledge receipt as soon as possible.

With Thanks

Carol Grayson (Haemophilia Action UK)
