18th April 1986.

Dr. D. Thomas,
N.I.B.S.C.,
Holly Hill,
Hampstead,
London,
NW3.

Dear Dr. Thomas,

SCREENING OF PLASMA DONATIONS FOR ANTIBODIES TO HTLV
III

I am writing to confirm that as from this date no batch of any Cutter product which has not been prepared from 100% screened plasma donations will be shipped from the U.S.A. for sale in the United Kingdom.

As requested, all protocols will include a statement confirming that each individual donation has been tested for antibody to HTLV III and found non-reactive.

Yours sincerely,

Marie W. Tatt (Mrs.),
Regulatory Affairs Manager.
