

ACTION ON REACT RESULTS

	<u>HBsAg</u>	<u>HTLV-III</u>	<u>ALT Reactive (>5)</u>	<u>(ALT 2-5)</u>	<u>Anti-D Reactive</u>
<u>PLASMA</u>					
1. Reactive unit:	Destroy	Destroy	Destroy or divert from Cutter	Destroy or divert from Cutter	Destroy or divert from Cutter
2. Subsequent units:	Destroy	Destroy	Destroy or divert from Cutter	If units(s) are non-reactive and donor has tested reactive for first time in 30 days: No action. Even if unit(s) are non-reactive, if donor has tested reactive for second time in 30 days: Destroy or divert from Cutter	Destroy or divert from Cutter
3. Previous units:	No action	Destroy all units in-house and call Cutter on any units donated during previous 6 weeks minimum. Some plasma types require longer look-back).	No action	No action	Destroy or divert from Cutter all units in-house and call Cutter on any other units donated during previous 6 weeks minimum. (Some plasma types require longer look-back.)
<u>DONOR</u>					
1. First Reactive	Permanent Deferral	Permanent Deferral	Permanent Deferral	No action	Permanent Deferral
2. Second Reactive within 30 days	N/A	N/A	N/A	Permanent Deferral	N/A
3. Second Reactive > 30 days apart	N/A	N/A	N/A	No action	N/A
