

Prof. A. Bloom
Chairman of the Haemophilia Reference Centres
Haematology Department,
University Hospital of Wales
Heath Park,
CARDIFF, CF4 1XW

7th August, 1984

Dear Professor Bloom,

Re: KOATE HEAT TREATED TRIAL

This is to inform you that we are in the process of setting up a trial for Koate H.T. in the U.K. for which a Trial Exemption Certificate has been applied, and no problems are anticipated.

This trial will be co-ordinated by Dr. Peter Jones at Newcastle and a copy of the protocol is enclosed.

We are hoping that as many reference centres as possible will be involved in this trial and for this reason, I should be most grateful if you would advise me which Centres you feel we should approach: and if you could, please enclose the details of this trial in the Agenda of the next Directors of the Reference Centres meeting, to be held on the 10th September 1984 at St. Thomas' Hospital, London.

Thanking you in anticipation.
Yours sincerely,

W. MARZOUK FIMLS

cc Dr. P. Badogni
Dr. C. Rizza
Dr. P. Jones.
