Lee,

I am unaware of any Koate® CSRs regarding the referenced problem. Is there anyway to determine from the CDC whether or not Koate® was implicated in these reports?

on Fernandez

*No - they don't have any hard data.*

- 1. There was no common lot of AHF rec'd by the 3 patients during the last 5 years.*
- 2. All manufacturer's AHF had been admin. to some of the 3 pts during the 5 year period.*
- 3. That's all they have to go on at the present.*
