

FACILITY - GENERAL RECALL - OCTOBER 1986

Recall Committee Meeting - Tuesday, 7th October - 0800 hrs

London Meeting

Mike Rodell\*, Mike Hrinda\*, Fred Feldman\*, Lofty Lucas, Anita Bessler, Peter Harris\*, Chris Bishop, K W Fitch, Robert Christie\*, Frances Stanton.

Asterisked personnel attended DHSS - all above in London group.

Dr. Jefferies (PMO), Dr. Rotblatt (PMO), David Hagger (Licence), Linda Silvester.

Jefferies cut across all Armour arguments about new developments etc. to require withdrawal.

PAH summarised our case including gaps in knowledge of seroconversions together with donor-testing on current product.

From DHSS - heat treatment is invalidated - Armour has seroconversions and no-one else has. Licence would be revoked if product not withdrawn.

Agreed to 1) Withdraw (Recall), 2) Surrender Licence.
