CUTTER LABORATORIES OVERSEAS CORPORATION

June 2, 1978

Mr. David Heath
Speywood Laboratories Ltd.
Chancel House, East Street
Bingham, Nottingham

Dear David:

Concerning the Liverpool report of Hepatitis B and its possible association with KOATE lot # NC 8059, I have reported the matter to Berkeley. They advise that they have no similar cases received or on file concerning this lot.

Also, Newt Ashworth advises that he will mail directly to you copies of the data submitted to the FDA to support two year KOATE dating as well as six month non-refrigerated storage. You can expect this information within a week to ten days.

Regards,

GRO-C

Carroll E. Jones
