

13th June, 1951.

Dear Drummond,

Mr. **GRO-A**

I have suggested to Zeitlin that he takes a sample of this donor's serum to New York when he sails on June 29th, in order to see if Stokes of Philadelphia will inoculate volunteers with it.

This would round off the story.

Could you arrange for 20ml. of serum to be collected? I would be most grateful if you could.

Yours sincerely,

sgd. W.d'A. Maycock.

Dr. R.J. Drummond,  
Regional Transfusion Centre,  
Cardiff.
