Dr. W.d'A. Maycock,
Blood Products Laboratory,
Lister Institute of Preventive Medicine,
Elstree,
Herts WD6 3AX

Dear Dr. d'A. Maycock,

Thank you for your letter of the 26th April. I agree with your suggested editorial changes on page two of the protocol. It would also seem possible as you suggest to investigate how R.T.C.'s test individual donations of plasma or 5L bags for the presence of antigen retrospectively.

You will be pleased to know that Sheffield Haemophilia Centre have also agreed to collaborate in this study. When I have approached the other Centres I will let you have a full list of those who will participate.

Kindest regards,

Yours sincerely,

GRO-C

Dr. ~~A~~ Craske.
