31st January, 1949.

Dr. S. O. Levinson,
Michael Reese Research
Foundation,
39th Street and
Ellis Avenue,
Chicago, Ill.

Unofficial

Dear Levinson,

You will have probably heard from the Medical Research Council by this time that we want to use the Levinson-Oppenheimer apparatus and are anxious to start as early as possible. I myself have heard no more since the official letter was sent off shortly before Christmas, after my return to England. I do hope that you will find it possible to supply this apparatus to us in this country, for it has the advantage of possessing the largest output per hour of any apparatus that I have seen or heard of.

I look back with great pleasure to my visit to Chicago and I hope that when I come again I shall have the opportunity of staying somewhat longer

and seeing more of the city and its
hospitals. Please give my kind
regards to Oppenheimer.

Yours sincerely,

W. d'A. Maycock.
