17th January, 1985

Dr. A.I. Scott,
Medical Director,
National Drugs Advisory Board,
63-64, Adelaide Rd.,
Dublin 2

Dear Dr. Scott,

During 1985 we are purchasing only two commercial heat-treated factor VIII concentrates from Cutter and Armour. We will be purchasing our usual quantity of cryoprecipitate from Pelican House and are assured this will be heat-treated in about one month's time. We will be purchasing only heat-treated factor IX concentrate from Cutter and have been advised that Pelican House factor IX concentrate will be shortly heat-treated.

Yours sincerely,

Ian J. Taperley,
Medical Director

c.c. Mr. F. Lyman
