Department of Health & Social Security,
Alexander Fleming House,
Elephant & Castle,
S.E.1.

13th June 1969

Dear Dr. Maycock,

Homologous Serum Jaundice

GRO-A

Herewith please find report of a further case of post transfusion jaundice.

Three donors were involved, one of whom was also reported to you in Marsh 1961 as being concerned in the case of Mr. **GRO-A** **GRO-A** from the London Hospital.

Since then he has made 15 donations all with apparently good effect. In the circumstances, however, his name has been withdrawn from our panel of donors.

I have been able to obtain a full donation of serum from him which I have sent off this morning to Dr. Zuckerman at the London School of Hygiene and Tropical Medicine.

With reference to our other donor (case **GRO-A**, Oldchurch Hospital, 10.4.69.) I am afraid that she has returned to her native Scotland - address unknown - the search continues!

With kind regards,

Yours sincerely
GRO-C

R. Stone
