Dear Dr Feld

RE: William Murphy - dob 7.11.34  
94 Hilary Avenue, Liverpool L14 6US

I reviewed this gentleman with haemophilia and cirrhosis due to hepatitis C infection. Mr Murphy's main problem is very tense ascites which is causing him considerable discomfort, and is interfering with him eating a decent meal. He is to be admitted to 5X under Dr Gilmore for this to be sorted out, and also for a possible liver transplant to be considered. He also needs a repeat endoscopy. I will write to Professor Shields to do this.

Yours sincerely

Angela McKernan
