16th June, 1992,

Dr. M.S. Feld,
Gresford,
Pilch Lane,
LIVERPOOL L14 0JE.

Dear Dr. Feld,

Re: Mr. William Murphy: dob 07.11.1934
94 Hilary Avenue, Liverpool 14.

Admitted: 8.6.92 Discharged: 08.6.92
DIAGNOSIS: Hepatitis, haemophilia, portal hypertension and
oesophageal varices.

This 58 year old man who has hepatitis, haemophilia, portal hypertension, and oesophageal varices was admitted under the joint care of Dr Hay and myself. He was admitted on this occasion for further study of his liver disease. This was necessarily limited because of his haemophilia.

X The liver work up has now been completed and we are awaiting the results. He was discharged well and will be admitted on the 29th June, for further sclerotherapy.

Yours sincerely,
