Dear Dr Field

Re: William Murphy Dob - 07.11.1934  
94 Hilary Avenue, Liverpool L14.

Diagnosis: Venous ulceration and eczema.

I am delighted that his venous ulcers have healed but he continues to have scaly eczema on the dorsum of the right foot and right ankle which we are treating with Dermovate ointment under four layer compression bandages until clear, after which he will be encouraged to wear grade two below knee compression stockings at all times.

Yours sincerely

Dr C M King FRCP  
Consultant Dermatologist
