PROFESSOR SIR ROBERT SHIELDS' CLINIC: 24.11.93

25th November, 1993,

Dr. C.M. Hay,  
Consultant Haematologist,  
Duncan Building,  
R.L.U.H.

Dear Dr. Hay,

Re: Mr. William Murphy: dob 07.11.1934  
94 Hiliary Avenue, Liverpool 14.

Thank you for your letter concerning this man. He has an easily reducible hernia due to a recurrence at the internal ring. There is little risk of strangulation. However, the present truss does not control the hernia adequately.

I am most reluctant in view of his attendant conditions to advise operation. He himself, agrees with this view and we both would prefer to try another form of truss. I am arranging for this to be done and we will see how he gets on.

Yours sincerely,

PROFESSOR SIR ROBERT SHIELDS,  
PROFESSOR OF SURGERY.

cc Dr. M.S. Feld,  
Gresford,  
Pilch Lane,  
LIVERPOOL L14 0JE.
