Mr Leinster
Consultant Surgeon
RLUH

Dear Mr Leinster

Re: William Murphy Dob: 7.11.34
94 Hilary Avenue Liverpool L14 6US

I would be grateful for your help with his HIV negative severe haemophiliac. He had a inguinal hernia repair performed, by yourself, some two or three years ago, which has slowly recurred over the last 12 months. Despite the use of a truss, he has increasing discomfort which is impairing his quality of life. In addition to his haemophilia, he has chronic hepatitis C infection and subsequent oesophageal viruses for which he receives regular endoscopy and sclerotherapy.

Many thanks for your help.

Yours sincerely

David Wright
Senior Registrar in Haematology
