LIVERPOOL L14 0JE.

Dear Dr. Feld,

RE: Mr. William Murphy: dob 07.11.1934
94 Hilary Avenue, Liverpool 14.

Mr. Murphy's scrotal swelling seems to be resolving very slowly. He seems to have a lot of discomfort, but I feel that further surgical intervention would make matters worse and he would lose the ground that he has already gained.

In view of his persistent tense ascites, I have referred him to Dr. Gilmore to see if his treatment can be changed to make him more comfortable.

We will review him ourselves in two months' time.

Yours sincerely,

Mr. Mark Hartley,
Senior Surgical Registrar.
