Dr. Lushington
80 Childwall Lane,
LIVERPOOL, 14.

Dear Dr. Lushington,

Re: William Murphy
94 Hilary Avenue, Liverpool, 14.

Mr. Murphy seems to have made a complete recovery now. He has had no further bleeding. He is feeling well. His liver function tests are greatly improved and I think he is more or less back to normal.

I would like to see him once again in four weeks' time and then I will most likely discharge him back to your care.

Yours sincerely,

B.A. McVerry
Consultant Haematologist.
