GF SHHD 47/90: HIV VIRUS AND BLOOD TRANSFUSIONS

Mr Forsyth was grateful for your minute of 6 February, 1990 covering a draft reply for him to send to Allan Stewart MP. The letter has been signed and issued. Mr Forsyth feels however that we should not adopt the arguments employed in paragraph 3 of your minute. His view is that if haemophiliacs are already disadvantaged vis a vis mortgages etc then those people who are HIV positive following blood transfusions are more disadvantaged.
