HIV HAEMOPHILIA LITIGATION - NORTH WEST THAMES RHA COSTS

Line to Take

I understand that Gerry Green, the lead RGM on the litigation, has been discussing costs with the Department and will be putting proposals to us soon. I understand that Health Authorities would be expected to bear the costs of preparing for individual cases, and that the discussions are about a possible contribution to the cost of the Health Authorities' co-ordinating activity. The position of North West Thames RHA in relation to the defence of the Blood Products Laboratory can be considered as part of this exercise.
