12th February 1981

Dr C A Ludlam
Consultant Haematologist
Royal Infirmary
EDINBURGH

Dear Chris

Very many thanks for your letter of the 9th February. I can respond as follows:-

- (a) Scottish plasma will not be pooled with English - at least for factor VIII concentrates. We may, however, find ourselves pooling with material from Northern Ireland, but decisions have not yet been taken,
- (b) RIA testing date - not sure, but will find out.
- (c) The minimum delay (down time) for VIII at PFC is 12 weeks.

Kindest regards,

Yours sincerely

John D Cash
