Dear Dr Hann

GRO-A - DOB GRO-A
HOSPITAL NO 282878

Thank you for your letter of 14 March addressed to Dr Hopkins who is presently on leave. I will investigate the batch dedication of Factor VIII heat-treated concentrate which you presently have and will arrange that sufficient quantities, to meet the operation requirements for this child, will be available by May 1.

I note that you will be carrying out the necessary pre- and post-infusion assays together with serial liver function tests.

Kind regards.

Yours sincerely

GRO-C

Director
