Dear Ian

Heat Treated Factor VIII

Many thanks for your letter of the 19th December.

I cannot help but share many of the ethical and professional concerns you have expressed so well. I very much regret some of the ways we have instituted this programme but take the view that in the circumstances we found ourselves we didn't appear to have other more reasonable or scientific options.

Perhaps we can chat about it when next we meet or perhaps you would like to give me a ring.

Kindest regards,

Yours sincerely

John D Cash
