Dear Dr McClelland

Thank you for your letter of the 15th November.

My first reaction is to congratulate yourself, Dr Ludlam and Dr Perry on an excellent job and to offer my thanks on behalf of all the Directors.

I have examined the data provided in your letter and agree with all the four conclusions made. I do not believe, at the present time, there is sufficient information to warrant the detailed investigation of other batches, other than 023110090.

Kindest regards.

Yours sincerely
