AIDS: HEALTH EDUCATION

The heading to this minute may suggest some conflict of interest! However, all will be revealed when you read the enclosed DHSS note to Ministers and draft HEC leaflet.

I am grateful to DHSS for keeping us in touch (Mr Cunningham is, by the way, ex-Scottish Office) but from the health education standpoint my inclination is simply to let HEC get on with it and leave SHEG to use the HEC leaflet if they wish. (We can easily let SHEG know informally of our views, whatever they collectively are.)

I should welcome your views and particularly, in view of Mr Davies' dealings on AIDS issues, whether we should report on this to Mr MacKay.

Mc Murray

To me with pls, per.

*Have we heard anything about
the further leaflet for blood donors?*
