17-11-87	Received phone call from a Mr GRO-B - GRO-B careers Officer, who was was asking for GRO-B employer about his Haemophilia and HIV status. It was explained that HIV status is confidential to the patient only. Talked generally about Haemophilia HIV and transmission of HIV. Talked about precaution that should be taken with anyone's blood.
18-11-87	Spoke to Mrs GRO-B about phone call with Mr GRO-B - she will tell GRO-B, other wise was happy about what was said. Also spoke to Mr GRO-B to tell him Mrs GRO-B "Helen" No should there be anything further. GRO-C
29/3/88 wt 56kg Derm	wt 161cm 9.12 by Review.
	Social: Now has full time permanent job in printing (on shifts etc) firm. Not heavy, but moves about. Occ - mild trauma. V. happy with job. Helped him to get out & forget Zeebrugge disaster etc. Very early 'girlfriend'.
	HIV: No symptoms. No worries. "Has put it on one side".
	Bleeds: Much more than GRO-B 67,000 in last year. No particular target joint. No chronic arthropathy. Is allowed home from work etc if has a bleed. The Boss is sympathetic (is - character). No access problems.
	Wt: fit & well *LN/An Rash over arms - ?? scarves type. - no lesions in hands. or ? eczema.
