Dr. R.S. Lane,
Director,
Blood Products Laboratory,
Dagger Lane,
Elstree,
Herts WD6 3BX.

Dear Dr. Lane,

HIV HAEMOPHILIA LITIGATION

I have been requested by the Solicitor (Mr. David Greensmith) of Morgan Bruce - Cardiff, to provide information with reference to heat treated F.VIII. Specifically they are asking me when I first used heat treated F.VIII concentrate in this district. My records show that NHS concentrate was supplied by the Blood Transfusion Service for treatment of my patients in the first few months of 1985. I have a record of the batch numbers but no indication in the record whether this was heat treated. It would be of great help to me when completing my statement to the Defence Solicitors if I could have this information and I would be most grateful if you would be able to tell me whether the following batch numbers were heat treated or not:

HLA 3202
HLA 3205 HLB 3205
HLA 3222
? HLB → HLA 3242 ← (HEATED HT2 24h at 70°C)
HL 3215
HL 3235 ALL OTHER BATCHES
 UNHEATED.

With many thanks,

Jonathan Stiles
16/2/90

Yours sincerely,

GRO-C

DR. H.E.T. KORN, F.R.C.Path.,
Consultant Haematologist.
