19th April, 1991.

Change of conditions for issue of "Minor Products"

I attach up to date lists of users of products formerly issued from PFL, mostly without charge on the understanding that clinical data would be provided.

The Executive Committee of 25th March decided that this policy would cease, and you may wish to notify all users to avoid fruitless phone calls. Subject only to practical details, all stocks of product held at PFL will be delivered to BPL by Brian Kennedy on 25th April, and I will instruct PFL staff to refer all prescribers to the Commercial Department. An interim arrangement might have served our prescribers better, but it is now too near our deadline and no-one else seems to be interested.
