Thank you for your letter of 19 April to Virginia Bottomley enclosing one from Dr Christine Lee of the Royal Free Hospital Haemophilia Centre.

I enclose a copy of the letter that Dr Metters has sent to Dr Lee in response to hers of 7 April. I am sorry about the delay in replying, but the topic is complex and advice had to be obtained from different parts of the Department. Also Dr Metters received a second letter from Dr Lee at the very time when he was about to send off the original reply. If you need any further information, I shall be happy to try to provide this for you.
