The Rt Hon Dawn Primarolo MP
Minister of State for Public Health,
Department of Health,
Richmond House,
79 Whitehall,
London SW1A 2NS

21st August 2007
Our Ref. 2006.1800.nl.cl

Dear Dawn Primarolo,

**Independent Public Inquiry Under Peter Archer QC:
The Skipton Fund and related Issues**

Thank you for your letter of 10th July. I have forwarded it to Mrs GRO-A and I have now received a reply from her. I enclose a copy of Mrs GRO-A's further letter, together with her comments on your response. You will note that she has several criticisms of the points made by you and I would be most grateful if you could deal with each of them in detail.

I look forward to hearing from you as soon as possible.

Yours sincerely,

GRO-C

Norman Lamb
Member of Parliament for North Norfolk
Liberal Democrat Shadow Secretary of State for Health

Dictated by Norman Lamb and signed in his absence

GRO-A

Suffolk.

GRO-A

22nd.July,2007.

Norman Lamb,MP.,
Liberal Democrat Shadow Secretary of State for Health,

Thankyou so much for forwarding the letter dated the 10th.July, from Dawn Primarolo. It is quite dreadful that yet another Minister of State is writing the same lies that I have had from her many predecessors.

I am now on my fifth cabinet minister in nine years,small wonder they are so ill informed and indifferent.

As so many people have asked for copies I have filled in the background as attached and hope you will not consider it an impertinence that a letter sent to you has been replicated.I did feel the issues raised incorrectly,yet again,needed to be addressed

Copy has gone to the Haemophilia Society,The Independent Public Enquiry, The All Party Group on Haemophilia and Lord Morris of Manchester.I hope you will agree that these are people with a special interest in the tragedy and are people of great probity.

Time is of the essence as the enquiry closes in a matter of days.

Thankyou again for your kind support and interest,perhaps you would send a copy of my background/ response to Primarolo, she may then make the effort to get her facts right.

Yours faithfully,

GRO-A

Mrs. GRO-A

GRO-A

Suffolk.

GRO-A

The paper trail to discover how my and Norman Lamb's letters fell into the hands of Dawn Primarolo has taken some time to retrace, briefly it is as follows:

My letter to Sir Ming Campbell...31st.January,2007. Acknowledged.

Passed on to:

Norman Lamb MP., Liberal Democrat Shadow Secretary of State for Health.

Passed on to:

Patricia Hewitt...16th.March,2007.This with a supporting letter from Norman Lamb.

Not acknowledged.

Passed on to:

Rosie Winterton...7th.June,2007.

Passed on to:

Dawn Primarolo.

Answer to Norman Lamb, one month later. Enclosed.

To deal with Primarolo's letter to Norman Lamb and kindly passed on to me for comment, please note the following.

A copy of this letter is enclosed. Only twelve days ago Primarolo is repeating Norman Warner's lies that even he gave up repeating in the Upper House in 2004 after I sent him copies of the material I had obtained from the Dublin solicitors and the Eire Dep. of Health and children.

I am not one of Mr. Lamb's constituents, Primarolo's grasp of English counties appears slight. Norfolk is one county, Suffolk is another. I can only assume that for a non-constituent to receive support from an MP not in search of a vote and not obligated to help would be beyond her comprehension.

I do not recall asking for information, under the Freedom of Information Act, about the Skipton Fund. Anyone can obtain information regarding the Skipton Fund by telephoning 02078081160. Nicholas Fish, an administrator of the fund has always been most helpful and informative.

Paragraph 3. defies belief, does Primarolo know nothing of the facts or is she happy to

re-introduce the lies that even Norman Warner gave up repeating in the Lords.

The Eire and the Canadian settlements were made on compassionate grounds not as an outcome of criminal charges based on wrong doing(I have a full copy of the Tribunal of Inquiry into the Infection with HIV and HepatitisC of Persons with Haemophilia and Related Matters',otherwise known and referred to as the 'Lindsay Report'.[Judge Alison Lindsay,4/9/2].

Primarolo states,in writing that,
 "the position in those countries was quite different'.

Would she please explain in what way they were,' quite different' ?

I am quite sure the ongoing Independent Public Enquiry under Peter Archer QC.,(The Rt.Hon.Lord Archer of Sandwell) would be glad to hear her evidence.

I would suggest,however,that she read the statements submitted by those concerned in this continuing and overwhelming tragedy knowingly inflicted upon NHS patients.

If the government is so sure that no," wrongful practices were employed in the UK." to quote Dawn Primarolo,why do they refuse a public enquiry?

If the donor screening for HepatitisC was not introduced until 1991 why did the NHS continue to use ,throughout the preceding 20 years,donor collected blood known to be infected with HepatitisC (NonA-NonB) and HIV?

Patients treated with products made from this plasma,known to be infected throughout this time,were not informed of the virus they would be given in those products and were given no choice as to accepting the treatment.

Perhaps Ms.Dawn Primarolo would care to answer these questions.

GRO-A
