HAEMOPHILIA AND HIV INFECTION.

1. MS(H) asked for a note, attached, on haemophilia and HIV infection to pass on to the Whip's office for issue to MPs. The purpose of the note is to clarify the Government's position on these matters and to assist in dealing with constituency enquiries etc. The note has been drafted in such a way that its contents are suitable to fall into the public domain.
2. We have not submitted a draft note earlier, as we wished to be sure that the new Secretary of State was taking the same line.
