13 February 2006

Dear Mr **GRO-A**

Thank you for your further letter dated 8<sup>th</sup> February in response to my previous letter dated 6<sup>th</sup> February.

There is nothing I can add to my previous response, other than to repeat that I cannot comment on individual cases. As you say, you asked a number of questions in your original letter but it is not for me to respond to them. You did not, as you claim, send an application to this department but to the Skipton Fund. It is therefore for the fund and not this department to deal with any outstanding queries.

I regret that I cannot be of further help.

Yours sincerely,

**GRO-C**
