

Dr Harris

9A

A draft letter prepared in collaboration with HSI is attached for you to send to Dr Lane with copies to Mr David Smart and Mr Armour.

I have confirmed with Dr Schild and Dr Thomas that they are willing to take on the testing of BPL's batches of coagulation factors for anti HIV. However they would wish to make it clear to DHSS that they cannot provide a guarantee for a product which is not licensed. I suggest that the terms under which they are taking on the testing are clarified once we have a response from Dr Lane to your letter.
