GRO-B

Dear Mr GRO-B

HEPATITIC C LETTER TO DONOR

Thank you for coming to SVS recently. I hope that you found our meeting useful and that it answered any questions, which you may have had.

Please find enclosed an information leaflet, which covers the topics we discussed.

As I explained to you I will refer you to Dr Morris, Consultant at Glasgow Royal Infirmary for long term follow-up. You will be receiving an outpatient appointment in due course.

If there is any further way in which we can help you or if you want me to answer any further questions please do not hesitate to get in touch with me or my secretary Mrs Patrick on GRO-C.

Yours sincerely

Douglas Frame
Associate Specialist
